

The series of individual election files are the combination of the “Statewide Results Black & White Candidates” file and the “Statewide Voter Statistics Black & White Candidates” file. These files contains data that is TAB DELIMITED. A list of the fields in this dataset and the description of those fields follows below. The reference to “Candidate x” and “Candidate x+1” is the individual candidate names for each file. The individual candidate details are the only difference between the series of combined files. For Single parish/single elections, there is one file per election. For Multi-parish elections, there is one file per Parish/ per election. For GOVERNOR, LT GOVERNOR, Secretary of State, Presidential and US-SENATE there is a single text file per election. US-Representatives yielded one file per parish since they are not statewide.
